---

*To develop my technical skills, learn from mentors, and build a strong foundation for my career in tech and to establish myself as a valuable asset to the organization and build a rewarding career in the industry.*

## EDUCATION

---

**Bachelor of Engineering - Computer Science Engineering** Nov 2020 - May 2024\*  
*Karpagam Institute of Technology, Coimbatore, Tamil Nadu*  
**CGPA 8.0/10**

**High School Diploma** Jun 2017 - Apr 2020  
*Kamarajar Matric Hr. Sec. School, Namakkal*  
**HSC 86.5%**  
**SSLC 95.6%**

## EXPERIENCE

---

**Ruby On Rails Developer Trainee** Jul 2023 - Oct 2023  
*Mallow Technologies Private Limited, Karur, Tamil Nadu*

- Have been trained on Ruby on Rails extensively with industry standards.
- Trained through a project-based approach.
- Self-paced training allowed me to develop self-reliance and have a good knowledge of learning by myself and learn new technologies in a short span of time.

## SKILLS

---

**Languages:** Ruby, Core Java, C, SQL, HTML/CSS, Javascript.

**Developer Tools:** VS Code, RubyMine, Eclipse, Render (Web Hosting).

**Technologies/Frameworks:** Ruby on Rails, Bootstrap, Git, GitHub, JQuery, AJAX, RSpec (Rails Unit Tests).

## PROJECTS

---

**A Live Messaging Application** [Live Link](#) | *Ruby on Rails* Oct 2023

- Optimized and clean back-end codes with Facebook's Messenger inspired front-end(multi-chat-window).
- Requires email authentication and uses web-sockets for real-time communication (Redis DB).
- Hosted on Render platform and is accessible to everyone.
- This project has covered mostly all concepts in Ruby on Rails from active records to the query optimizations in DB's and also the MVC patterns & DRY approach in RoR.
- Also AJAX and JQuery for asynchronous processes.
